FERAL CAT PROGRAM

Our feral cat program continues with 6 residents accessing our cat traps so far this year.

Town residents and farmers in the GRC area are encouraged to utilise this free program in an attempt to reduce feral cat numbers and their disease spreading and menace to wildlife in our area.

All cats captured under this program are checked for micro-chips and then either returned to their owners or humanely euthanised by a veterinarian.

I went to shelter to get a cat but i left with a pair of best friends. This was their first night home. 🥰

QUEENSLAND DOG BREEDER REGISTER

In response to serious concerns surrounding unscrupulous and cruel puppy breeding, the Qld. Government has developed guidelines and will shortly introduce legislation covering everyone who has, or is responsible for, any female dog that has a litter.

It doesn't matter how many dogs are owned, or the breed of the dog.

**A PERSON MUST HAVE A
SUPPLY NUMBER**

TO ADVERTISE, SELL OR GIVE THEIR DOGS OR PUPPIES TO ANOTHER PERSON.
